**Restriction Requirement**

The Examiner requests election between seven groups of claims allegedly drawn to inventions or groups of inventions that are not linked so as to form a single general inventive concept (Office Action, p. 2). In response, Applicants elect Group 7. While Applicants do not traverse the division of the claims into groups 1-7, Applicants do traverse the proposed further restriction of groups 1-3. Applicants respectfully submit that it would not be an undue burden to search these groups across their full scope. Since Applicants did not elect any of groups 1-3, Applicants will not present further detailed arguments in traversal in this response, but reserve the right to do so and to petition the further restriction of groups 1-3 should Applicants pursue these groups in the future.
